

K-12 FOREST EDUCATION COLLABORATIVE

MEMBERS, PRODUCTS AND SERVICES

ORGANIZATION	PRODUCTS AND SERVICES
Forestry class instruction	
Alberni District Secondary School Forestry Program	Programs focused on building and developing understanding of issues of Natural Resource Management in BC with a strong focus on forestry education, training, and skill development for Grades 9 – 12 students in our public school system.
Carihi Forestry Education Program	Half day course focused on building employable skills and educating students on forests
Envirothon BC	Grades 9-12 environmental education program focusing on aquatic, forest, wildlife, soils resources and sustainable agriculture to help secondary students go from environmental awareness to active stewardship
Outdoor classroom opportunities	
Blue Lake Forest Education Society	Outdoor education programs and teaching materials for Grades 1-12 students
Child and Nature Alliance of Canada	Outdoor programs that encourage youth to connect with the outdoors and nature
District of Mission Interpretive Forest Program	Developing interpretive programs regarding tourism and recreation and providing support for career discussions with students
Evans Lake Forest Education Society	Forest and outdoor education programs for school classes and youth groups ages 8-16
Forest School Canada	Outdoor learning program with a strong emphasis on educators observing, learning with, and teaching students in the context of the environment
Galiano Conservancy Association	Outdoor program involving K-12 students to participate in forest restoration projects and learn about the environment and its relationship to their lives
Gavin Lake Forest Education Centre	Outdoor education program modules that cover topics such as ecology, first nations culture, sustainability, habitat and forest use for local grade 6 classes
Silver Lake Camp	Forest and outdoor education programs for school classes and youth groups
Sunnyside Acres Heritage Society	Provides an urban forest as a learning area regarding nature and forest history
Young Naturalists Club of BC	Outdoor opportunities for K-12 students to learn about and appreciate nature

ORGANIZATION	PRODUCTS/SERVICES
Classroom teaching resources	
Association of BC Forest Professionals	Teacher and classroom resources; ABCFP member resources; focus on basic forest information and forest sector careers
BC Community Forests Association	Information about community forestry; field experience for High School forestry class students
Canadian Forestry Association/CIF	Teaching Kits for educators with the tools to help K-12 students better understand the value of forests and the importance of protecting and conserving them
Council of Forest Industries	SFM teaching materials for Grades 5-12; career opportunity information for Grades 11-12
Federation of BC Woodlot Associations	Resource package to provide school education on BC's forests, protecting forest values and resources
Festival of Forestry	Provide teachers with information and materials that can be taken back into the classroom and used as teaching tools, extending the information to their students and colleagues
Forests Ontario - Partner	Focus on Forests is Canada's source of forest education, providing resources and programs to connect youth with our natural environment. We achieve this by providing interactive programs for youth and by providing teachers with free educational resources.
Habitat Conservation Trust Foundation/Wild BC	Environmental education programs, teaching materials and lesson plans for K-12 students
Learn Forestry	Forest resource kits for K-12, including teacher resource materials, lessons plans
Northwest Wildlife Preservation Society	School presentations on wildlife, Nature Walks & Workshops and Youth Estuary Stewardship programs in lower mainland, Fraser Valley and Vancouver Island schools
South Coast Conservation Program	Guidebook for K-7 teachers regarding educating students on the species and ecosystems at risk in south coast
Support for teachers and students	
Association of Professional Biology	Internal programs and resources for APB members use
MFLNRO-BCTS	Provides staff support for teachers
Science World Scientist & Innovators Schools Program	School presentation program that helps address British Columbia's need for more scientists, engineers, technologists and technicians to promote students' interest in these areas
Selkirk College	Teacher and classroom resources; focus on basic forest information and forest sector careers
